## ACADEMIC PROPOSAL

### Study Programme

On the first day at school, each student is interviewed by a senior teacher, who is in charge of designing a “Study Program” which is set up based on the academic objectives of each student. Students move up when they have passed the required skills tests. These tests are given in Week 3 and Week 5 of the 6-week Block.

### Student Passport

The entire learning process is reflected in a document called "Student Passport" which is reviewed by the teacher and the student once every 6 weeks. If necessary, modifications are made for students to achieve their goals quickly.

### Student Conferences

Every 6 weeks, “Student Conferences” are held between the student and the tutor. In these meetings, the student's progress and study goals are analysed; and if necessary, modifications are made to the study plan.

### Online learning system

Additionally, the student will have access to the “Worldwide Online” (on-line learning system); created especially for the student to deepen their knowledge through specific exercises which are designed to improve their level of English. This system can be accessed from any electronic device.

## OUR PARTNERS

## ABOUT OUR EDUCATION GROUP

Worldwide School and Crown Institute collaborate closely to enhance each other's educational services and offerings.

The two schools have partnered to create English & Vocational Study pathways and short-term internship programmes for many international students.

This relationship provides Worldwide School students with multiple pathways to English training plus numerous tertiary qualifications.

Worldwide students now have access to more training resources and facilities, more options for further studies like vocational qualifications or pathways to university studies, and employment opportunities.

We offer a unique practical and learning experience for our students:

- WWSE students will get to enjoy English + short course options (Health and Safety, Health and Wellbeing, Barista, Hotel, Restaurant, Event Management, and more).
- WWSE students will have access to Crown's training facilities.
- WWSE students will be in a position to connect with Crown's NZ-based and international industry and education partners.

Crown works with over 50 industry partners, big corporates such as FUJIFILM, Four Points by Sheraton, SEALIFE, AJ Hackett, iFLY, Argus Fire Protection, Ranfurly Hospital & Village, The Hotel Britomart, Ramada & Wyndham Hotels & Resorts...etc.

In terms of education partners, we have signed agreements with Massey University, the Technological and Higher Education Institute of Hong Kong (THEi), and the Hang Seng University of Hong Kong (HSUHK), providing students with an abundance of choice locally and internationally.

Students successfully completing our New Zealand Certificate of Business (Level 4) will gain direct entry to three of Massey's degree programs: Bachelor of Business / Information Sciences / Construction (Any major). For international students, this means they do not have to worry about fulfilling the higher English requirements to study at the undergraduate level.

## HISTORY

Worldwide was established in 1989 by three businessmen, and the original premise was at 1 Queen Street. In 1996, the school was purchased by two of their senior staff and changed the school name and moved to its following location at 8 Commerce street.

Then in 2014, Worldwide School moved to their current location. 80 Anzac Avenue is a six-floor building that Worldwide School shares with another private provider, Crown Institute of Studies. Moving there marked the beginning of another period of growth, where from 2016, Worldwide School had at any one time up to 250 students and usually from 25-30 different nationalities.

In September 2021, the owners sold Worldwide School to KIEL, a trusted partner who owns and operates the Crown Institute of Studies. The two schools will not be merging but will be working as partners to enhance each other's educational services. WWSE now has access to more training resources and facilities, more options for further studies (vocational qualifications or pathways to university studies) and employment opportunities.
